Project Description _____

An application for an Adequate Public Facilities Certificate is submitted in conjunction with an application for Site Design Plan Review and Planned Development approval for all new development or redevelopment of any non-residential building or any mixed-use development of non-residential and residential uses where the proposed development is greater than 10,000 square feet in area or a residential subdivision of more than eleven (11) lots (regardless of the square footage of the development). Please attach a written statement addressing the standards identified in chapters 22.12 thru 22.24. Additional information with regard to applicable standards and review procedures can be accessed from the Adequate Public Facilities webpage: Departmental Requirements.
