Section V: Measures and Indicators  

(Note: The Measures and Indicators Sections (D) – (G) are only required for jurisdictions issuing more than 50 new residential building permits in the reporting year).  

(A) In the Total column in Table 1, New Residential Permits Issued (Inside and Outside the PFA) in (C) below, enter the total number of new residential building permits issued in 2013. Enter 0 if no new residential building permits were issued in 2014.  

(Note: For annual reporting purposes, tabulate the amount of new residential building permits issued at time your jurisdiction has granted the ability for a new residential unit to be constructed. It does not mean that the unit has been constructed, will be constructed, or is occupied. If your local definition of building permit varies, please indicate the definition used to tabulate new residential building permits. Additionally, tracking the amount of reconstruction, replacement or demolition of residential units in Table 2A may be beneficial when conducting the Development Capacity Analysis in Section VIII)  

(B) In the PFA column in Table 1, enter the total number of permits issued inside the Priority Funding Area (PFA). Enter 0 if no new residential building permits issued inside the PFA in 2013.
(C) In the Non-PFA column in Table 1, enter the total number of permits issued outside the PFA. Enter 0 if no new residential building permits issued outside the PFA in 2014.

(F) Amount, Net Density and Share of Residential Growth:

A number of values are repeated in Tables 1-5. Be sure to enter consistent values for each similar category used in these tables.)

(G) Amount, Net Density and Share of Commercial Growth:
(Note: To calculate the amount, net density and share of commercial growth, jurisdictions must identify the total number of new commercial permits issued; the total square footage of the commercial building approved; the total number of new commercial lots approved; and the total approved subdivision net lot area, in acres, for commercial subdivisions. The total building square footage and total lot size values should be the same for Tables 6-8. For annual report purposes, all approved square footage (gross) should be tabulated, with the understanding that not all building square footage reported may be used for commercial or retail related activities. Commercial growth should include retail, office, hotel, industrial uses and may include other uses, such as, mixed-use, institutional and agricultural structures, if approved for commercial use.)

Section VII: Local Land Use Preservation Percentage Goal

(A) Is all land within the boundaries of the jurisdiction in a PFA?  

Y ☒  N ☐

1. If yes, then the local land use percentage goal does not need to be established. Skip to Section VIII: Development Capacity Analysis.

(Note: A DCA is required every 3-years and whenever there is a significant change in zoning or land use pattern. See §1-208(c)(1)(iii) of the Land Use Article. A DCA may be submitted independently from the Annual Report, such as, part of a comprehensive plan update.)

Y ☒ N ☐

1. If no, explain why an updated DCA has not been submitted, such as, no substantial growth changes, etc.

2. If yes, then skip to (C):

(Note: For additional guidance on how to conduct a Development Capacity Analysis, see the Estimating Residential Development Capacity Analysis Guidebook, August 2005, located in the Planning Guide section of the MPD website: http://planning.maryland.gov/OurProducts/publications.shtml#ModelsGuidelines. MDP provides technical assistance to local governments in completing development capacity analyses. Please contact your MDP regional planner for more information.)

(B) When was the last DCA submitted? Identify Month and Year:

Re: Findings regarding the 2014 Annual Maryland State Planning Report, prepared in accordance with Annotated Code of Maryland Sections 1-207 and 1-208

SUMMARY
The Land Use Article of the Annotated Code of Maryland, Section 1-207, requires that the City of Annapolis’ Planning Commission shall prepare, adopt, and file an annual report for the previous calendar year with the legislative body. If more than 50 building permits for new residential units are issued in a given year, the reporting requirements of Section 1-208 also need to be included. These annual reports should additionally be submitted to the Maryland Department of Planning (MDP). MDP has developed a worksheet template that can be used to submit the required information.

BACKGROUND AND ANALYSIS
The Maryland General Assembly updated the requirements for annual reports with three legislative bills in 2009. In addition to basic development information and the status of new zoning amendments and Comprehensive Plan elements, local jurisdictions must also report on development restrictions that resulted from an Adequate Public Facilities Ordinance (APFO) in Priority Funding Areas (PFA). The entirety of the City of Annapolis is designated as a PFA, however our APFO did not trigger any development restrictions in the past year.

PUBLIC HEARING AND DELIBERATION
In accordance with the Annotated Code of Maryland, a public hearing was held on November 5, 2015 and the public was invited to comment and review the annual reports for 2014. Staff reviewed the five main indicators that MDP requires information for and staff additionally summarized the data in the reports. This information was forwarded to the Planning Commission for review in a report dated October 15, 2015.

The draft reports have been available on the Planning and Zoning website as of October 15, 2015. No one spoke at the hearing.
RECOMMENDATION
By a vote of 5 - 0, the Planning Commission approved the Section 1-207 and 1-208 Annual Reports for 2014 and supported the filing of the reports with the City Council and the Maryland Department of Planning.

Adopted November 5, 2015

William Herald, Chair
